## CALIFORNIA

Tom Peck, Jr. • Custom Building Products, Inc. • Irvine, CA  
After a racing career in Italy, this car was modified and used in the movie, "The Racers," starring Kirk Douglas. I located the car and original body in Europe in 2015 and conducted a two-year restoration at the Ferrari factory. Since the car returned in 2017, it has won numerous awards over the last two years including Pebble Beach, Amelia Island and Cavallino.

ECB® Classic - Crack Isolation and MVT Protection

# GEORGIA

David Corson • F & J Publications • Suwanee, GA

Our family owned "Pollock Auto Showcase," a car museum in Pottstown, PA. They collected and restored many old cars over the years. My father met a man who built Bugatti Car Kits with VW 4-cylinder air-cooled engines and he wanted a beach car for the New Jersey summers. In January 1978 my father passed away in a plane crash and I inherited the car that stayed in storage until a few years ago when I decided to have it shipped to me in GA. It was like time had stood still, the engine only had 237 miles on it. With some minor work and tender loving care, it is now running as good as new. Vroom, Vroom!"

**CALIFORNIA**

Buddy Bellflower • California Interiors • San Gabriel, CA  
I've wanted to restore this model car since I was in High School and I bought this from the original owner. It has a 1969 Corvette big block 427ci. I put in a whole new custom interior and performed a complete color change. I am very happy with the finished product. It's what we call a sleeper!

### 1946 Chrysler Town & Country Convertible

David Johnson • Summitville Tiles, Inc • Salem OH

Have owned the car for ten or more years – acquired from a collector in Colorado. No specific history known on car. It was the first year for the Town & Country "woodie" and is more rare than succeeding years. Wood framing is White Ash and the inserts are Mahogany veneer.

## KENTUCKY

Travis Wilcox • Louisville Tile • Louisville, KY

I purchased this Toyota Land Cruiser in 2013 from the original owner. Land Cruiser has a legendary history of reliability, ruggedness and off-road ability which made it an easy choice. I've added a few components like, Icon vehicle dynamics stage 4 suspension, Slei off-road rock sliders and Slei's KDSS relocation bracket to make the 35's work, Timbren SES bump stops F/R, SPC UCA's, TJM TI3 front bumper with a Warn Zeon 12 S winch, custom rear bumper and fab, TRD forged 8.5 x17 wheels wrapped with 35x12.5x17 Nitto ridge grapplers, ARB air compressor, ARB front and rear air lockers, roof rack, LED's and a larger main battery group to run a fridge freezer and other electrical accessories. For the last four years I have explored the recreational area and canyons of southern Utah. This is my daily driver. Life is too short to drive a boring vehicle.

**MICHIGAN**  
Paul Bronikowski • PJB Sales • Clarkston, MI  
I always liked the look of a Beetle trimmed out in a Baja Bug style. I saw the car on Ebay and really liked the look and stance and it also had a rare sunroof. When the car was delivered the disappointment set in. The paint job was about a 20 footer. The transmission wouldn't shift, the brakes didn't work, and the sunroof was glued to the roof of the car and would not open. I fixed all the mechanical items first and was going to put a cheap paint job on it. After a few days, I realized I would not be happy with that, so I ended up stripping the car down to metal and performed a full blown restoration on the body, the interior and sunroof. The car came out great. It turns heads everywhere I take it.

## TEXAS

Russell Chilton • Gomez Floor Covering • San Antonio, TX

Roughly twenty 1952 Hudson Hornet Convertibles remain of the original 360. Mine was abandoned in a dry creek bed in 1965. Thirty-five years later, I was gripped with the irrational drive to restore her. I sourced parts from 48 states and 4 different countries over nine painstaking years. With over 600 NOS parts, TWIN-H Power, a Hydraulic transmission, and hydraulic windows, we call her Scarlett, for her flashy red contrast and because, like Scarlett O'Hara, she's beautiful but painfully demanding.

ECB Kits - Strip Application for Crack Protection

CALIFORNIA

Sean Karagoz • Instock • Hollywood, CA

I wasn't in the market for something this vintage when I bought this car from a friend who was downsizing his life. While I had always wanted a hot rod, the pagoda (as they are called) looked too cool to pass up on. The straight 6 cyl 2.3L is a high output workhorse that is mated with a suspension designed for comfort and performance. Always fun to drive, these vehicles still resonate the charm and glamour of an era of auto building now long gone.

Super SAM® 125 - Sound Control and MVT Protection

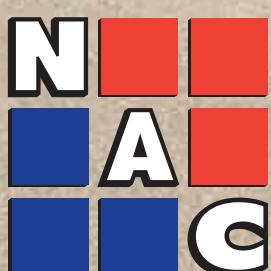

**OHIO**

**Tom Duve • NAC Products, Inc • Stow, OH**  
This convertible, among the 625 examples built in 1964 in the letter "K" series, is unique with its optional 413/390 h.p. This rarely seen example of the cross-ram manifold features dual Carter four bbl afb carbs, Torqueflight automatic, H.D. Suspension, A.C., Power Steering and A.M. Radio. There is only approximately 150 examples of this model known to exist today.

Looking for a project with my son, Daniel, we came across this unique VW Super Beetle. It is one of the last original Beetles produced, and this one, in the last month of production. With less than 11,000 miles, it boasts a 1600cc fuel injected 45 hp engine and is just a fun car to drive. We do turn a few heads at the local muscle car rallies with this one!
